## AMERICA'S HIGHWAYS, 1776-1976

This book, records the story of U.S. highway development, beginning in the early years of the new nation and expanding with the growing country as it moved into the undeveloped areas west of the original colonies, ultimately evolving into the federal-aid highway program in which state and federal governments have worked cooperatively for the past 60 years. Illustrated with hundreds of nostalgic photographs, this publication brings this little-known area of U.S. history to public attention and creates a new sense of appreciation for the extensive systems of roads and highways on which we depend for the goods and services that comprise our contemporary lifestyle. 1976. 553 p. il.

## FIFTY BIRDS OF TOWN AND CITY

This book pictures and describes 50 birds commonly seen in U.S. cities. It is the non-birdwatcher's bird bible, produced by the U.S. Bureau of Sport Fisheries and Wildlife. It's not a textbook, but an easy reading fun book for every city dweller who has ever wondered what that bird was that just whizzed by. Its 54 pages sparkle with interesting facts (catbirds mew like cats

when alarmed) and with full color illustrations that enable you to easily identify each bird when you see it. 1974. 54 p. il.

Lewis and his genius for organizing; the first Labor Day parade; what worklife may be like in 2001; the legendary Mother Jones, soul of the coal mines; and 27 more. ## Preface

In response to requests by the library community and the Depository Library Council to the Public Printer, the Assistant Public Printer (Superintendent of Documents) in the summer of 1974 directed the Library Division to join the Ohio College Library Center's on-line cataloging network, convert to the MARC format, and catalog according to Anglo-American cataloging rules (AACR).

The *Monthly Catalog* utilizes AACR and Library of Congress main entries. Subjects are derived from *Library of Congress Subject Headings* 8th edition and its supplements. The catalog consists of text and four indexes—author, title, subject, and series/report number.

The Government Printing Office considers the *Monthly Catalog* to be an evolving publication. Its scope and timeliness will continue to be of prime importance.

## Abstract

The purpose of this study was to determine the effect of a 12-week training program on the physical fitness and health status of sedentary, middle-aged men. The subjects were 20 men, aged 40-50 years, who were sedentary and had no history of cardiovascular disease. They were divided into two groups: a control group and an exercise group. The control group continued with their sedentary lifestyle, while the exercise group participated in a supervised, 12-week aerobic exercise program. The exercise program consisted of three sessions per week, each lasting 30 minutes. The sessions were performed on a treadmill at a speed of 3.0 mph, with a 5% incline. The heart rate was monitored during each session, and the subjects were encouraged to maintain a heart rate between 140 and 160 beats per minute. The physical fitness was assessed at the beginning and end of the 12-week period using a series of tests: a 1.5-mile run, a 1.5-mile walk, a 1.5-mile jog, a 1.5-mile hike, a 1.5-mile swim, and a 1.5-mile bike ride. The health status was assessed using a series of questionnaires that measured the subjects' self-reported health, energy, and mood. The results of the study showed that the exercise group had significantly improved their physical fitness and health status compared to the control group. The exercise group had a significantly lower heart rate during the 1.5-mile run, a significantly lower heart rate during the 1.5-mile walk, a significantly lower heart rate during the 1.5-mile jog, a significantly lower heart rate during the 1.5-mile hike, a significantly lower heart rate during the 1.5-mile swim, and a significantly lower heart rate during the 1.5-mile bike ride. The exercise group also had significantly improved their self-reported health, energy, and mood compared to the control group.

## LIST OF GOVERNMENT AUTHORS

The alphabetical list in the preliminary pages locates the catalog sequence of documents issued by a specific agency. This list is compiled each month and includes only Government authors of documents received and cataloged during that time span.

## INDEXES

Entries in the Monthly Catalog are indexed for access by author, title, subject, and series/report:

## General Information

The Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402, is authorized by law to sell copies of Government publications. A 25 percent discount is allowed to purchasers of 100 or more copies of a single publication mailed to one address. Bookdealers, buying for the purpose of resale, may receive the same discount regardless of quantity if the publications are mailed to their place of business. No discount is allowed when the publications are mailed to a third party unless in quantities of 100 or more, or on several periodicals or groups of publications which fall into a special pricing category.

### PRICES

The prices of all U.S. Government publications sold by the Superintendent of Documents are established by the Public Printer in accordance with Title 44 of the United States Code.

Prices are subject to change and the prices charged on your order will be those in effect at the time your order is processed. As it is not feasible to manually correct the prices in the publications affected by price changes, the prices charged on your order may differ from those printed in the publications.

Although the issuing agencies generally know about price changes, some agencies inadvertently continue to publish announcements, order forms, and catalogs which contain erroneous prices. Frequently, the news media publish articles with erroneous or outdated prices.

### PRICE LIST

There is no general price list of public documents, but numerous bibliographies have been prepared on special subjects and these will be furnished, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

### LIST OF SELECTED PUBLICATIONS

In addition to the subject bibliographies, the Office of the Superintendent of Documents issues a monthly list of Selected United States Government Publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

### CONGRESSIONAL PUBLICATIONS

Subscription service has been implemented for the following groups of Congressional publications: House and Senate Documents; House and Senate Hearings; House and Senate Reports on Public Bills; House and Senate Reports on Private Bills; Public Bills; Private Bills; Public Laws; and Private Laws. In most cases, single copies of publications in these groups of Congressional publications are not sold. Sales copies of a few of the more important ones are printed, and you will find the sales prices listed in the individual entries. The current subscription prices may be obtained from the Superintendent of Documents.

## How To Order Publications

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a "for sale" statement in the text entries. Those Congressional Publications which are not for sale may be obtained from the responsible Committee, or from the House or Senate Documents Room. Entries for publications sold by National Technical Information Services include a statement to that effect. Unless otherwise indicated, publications are distributed by the issuing office which appears immediately before the publication date in each entry. Additional information necessary for procuring documents appears above or within text entries. Requests to issuing offices should contain titles and dates of publications.

Do *not* use the L.C. card number in ordering publications.

### HOW TO REMIT

Remittances for Government Printing Office sales documents should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by check or money order. Publications cannot be mailed in advance of receipt of remittance. Foreign remittances should be made by International Postal Money Order, by draft on a United States or Canadian bank, or by UNESCO Coupons. All remittances should be made payable to the Superintendent of Documents.

*Orders received with postage stamps, International Response Coupons, or foreign money will be returned.*

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$50.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, and the amount of charge.

No charge is made for postage on documents forwarded to points in United States and its possessions. There is a special handling charge on all orders mailed to other countries. The charge is one-fourth of the current selling price of publications and subscription services ordered. This is to cover the special handling required to comply with the customs and international mailing regulations.

### USE STOCK NUMBERS FOR BETTER SERVICE

Because we now warehouse, store, and pick publications by their stock numbers (S/N), we can process your orders more quickly and accurately if you order by stock number and title. If you don't know the stock number, then order by title and the classification number which appears above each entry. Congressional documents and reports should be ordered by title together with the document or report number and the Congress, e.g., 94-1:H.doc.1.

### LIBRARY CLASSIFICATION OF GOVERNMENT DOCUMENTS

The classification given above entries for departmental publication is that used in the Library Division of the Office of the Superintendent of Documents. The shilling mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.
